TABLE OF CONTENTS

	Page No.
Part 1 INTRODUCTION	1-1
1.1 WHAT DOES THE AUSRIVAS PHYSICAL AND CHEMICAL REPORTING SOFTWARE DO?	1-1
1.2 MECHANICS OF THE PHYSICAL AND CHEMICAL REPORTING SOFTWARE	1-1
Part 2 INSTALLING THE SOFTWARE	2-1
2.1 SOFTWARE AND HARDWARE REQUIREMENTS	2-1
2.1.1 All Systems	2-1
2.1.2 Microsoft Windows	2-1
2.1.3 Other systems	2-1
2.2 WHERE AND HOW TO GET THE SOFTWARE	2-1
2.3 ACCESS INFORMATION	2-2
2.4 HOW TO INSTALL THE SOFTWARE	2-2
2.5 HOW INTERNET ACCESS WORKS	2-4
2.5.1 Why is the reference data stored on a server?	2-5
2.5.2 What happens to my test data?	2-5
2.6 SETTING UP THE SOFTWARE FOR INTERNET ACCESS	2-5
2.6.1 How do I enter my AUSRIVAS username and password?	2-5
2.6.2 What if I access the Internet through a proxy server?	2-6
2.6.3 Can I save my proxy server settings?	2-8
2.6.4 My proxy server requires a password	2-9
Part 3 SETTING UP TEST SITE DATA	3-1
3.1 WHAT ARE TEST DATA?	3-1
3.2 HOW TO SET UP A TEST DATA SET	3-1
3.2.1 Step 1 Find out which models are available	3-1
3.2.2 Step 2 Find out which variables are available in the corresponding reference data set	3-2
3.2.3 Step 3 Find out the attributes of each desired variable	3-6
3.2.4 Step 4 Set up the test data set in an Excel spreadsheet	3-6
3.2.5 Step 5 Convert the spreadsheet to .csv file format	3-8
3.2.5.1 Problems encountered when converting spreadsheets to .csv format	3-9
3.3 CHECKLIST	3-11
Part 4 RUNNING TEST SITE DATA	4-1
4.1 LOADING TEST DATA	4-1
4.2 SELECTING WHICH VARIABLES AND SITES TO ANALYSE	4-3
4.2.1 Selecting all variables from a single site	4-3
4.2.2 Selecting all sites for a single variable	4-4
4.2.3 Selecting different combinations of sites and variables	4-4

Table of contents (cont.)

4.2.4	Selecting all variables and sites	4-5
4.2.5	Special note about selecting variables and sites	4-6
4.3	RUNNING A TEST DATA SET	4-6
4.4	THE STATUS BAR	4-8
Part 5	OUTPUTS	5-1
5.1	WHAT ARE THE OUTPUTS?	5-1
5.1.1	Continuous variable tabs	5-2
5.1.2	Categorical variable tabs	5-3
5.1.3	Data count tab	5-4
5.1.4	Unused variables tab	5-5
5.1.5	Out of range variables tab	5-6
5.1.6	Common problems with outputs	5-7
5.2	SAVING AND PRINTING THE OUTPUTS	5-11
5.2.1	Saving and printing outputs from continuous variables	5-11
5.2.2	Saving and printing categorical variable outputs	5-16
5.2.3	Saving and printing outputs of other tabs	5-20
Part 6	INTERPRETING OUTPUTS	6-1
6.1	DECIDING WHICH REFERENCE SITE CLASSIFICATION GROUP TO USE	6-1
6.2	INTERPRETATION OF OUTPUTS	6-2
6.1.1	Continuous variables	6-3
6.1.2	Categorical variables	6-9
6.1.3	Bringing it all together	6-10
6.3	ADDITIONAL POINTS	6-12
Part 7	UPDATING REFERENCE SITE DATA	7-1
7.1	INTRODUCTION	7-1
7.1.1	Why update reference site data?	7-1
7.1.2	How are reference site data updated?	7-1
7.2	HOW TO SET UP OR MODIFY A REFERENCE DATA SET	7-2
7.2.1	Step 1 Set up the reference data set in a spreadsheet	7-2
7.2.1.1	General instructions	7-2
7.2.2	Step 2 Convert the spreadsheet to .csv file format	7-4
7.2.2.1	General instructions	7-4
7.2.2.2	Problems encountered when converting spreadsheets to .csv files	7-5
7.3	HOW TO SET UP OR MODIFY A REFERENCE VARIABLES INFORMATION SHEET	7-7
7.3.1	Step 1 Set up the reference variables information sheet in a spreadsheet	7-7
7.3.1.1	General properties of the reference variables information spreadsheet	7-8
7.3.1.2	Explanation of individual columns in the reference variables information spreadsheet	7-9
7.3.2	Step 2 Convert the spreadsheet to .csv file format	7-13
7.3.2.1	General instructions	7-13

Table of contents (cont.)

7.3.2.2	Problems encountered when converting spreadsheets to .csv files	7-14
7.4	CHECKLIST	7-16
Part 8	TROUBLESHOOTING	8-1
8.1	INTRODUCTION	8-1
8.2	DOWNLOADING AND INSTALLING THE SOFTWARE	8-1
8.2.1	When I run the software, instead of the program I get something called "Info-ZIP's" Self Extractor	8-1
8.2.2	When I run the software, I get an "invalid command name" error ...	8-2
8.3	INTERNET ACCESS	8-3
8.3.1	When I use the software, I get an Internet Error dialog box	8-3
8.3.2	I get an "Authorisation Required" or "Unauthorised" message when I use the software	8-4
8.3.3	I get a "Proxy Authentication Required" error when I use the software.....	8-5
8.4	RUNNING TEST SITE DATA	8-6
8.4.1	When I click on the "run" button, nothing seems to happen	8-6
8.4.2	When I try to open (import) a file, I get an "Incorrect file format" error	8-7
8.4.3	When I try to print a graph, nothing appears at the printer	8-8
